

Pure Gas Displacing Equipment

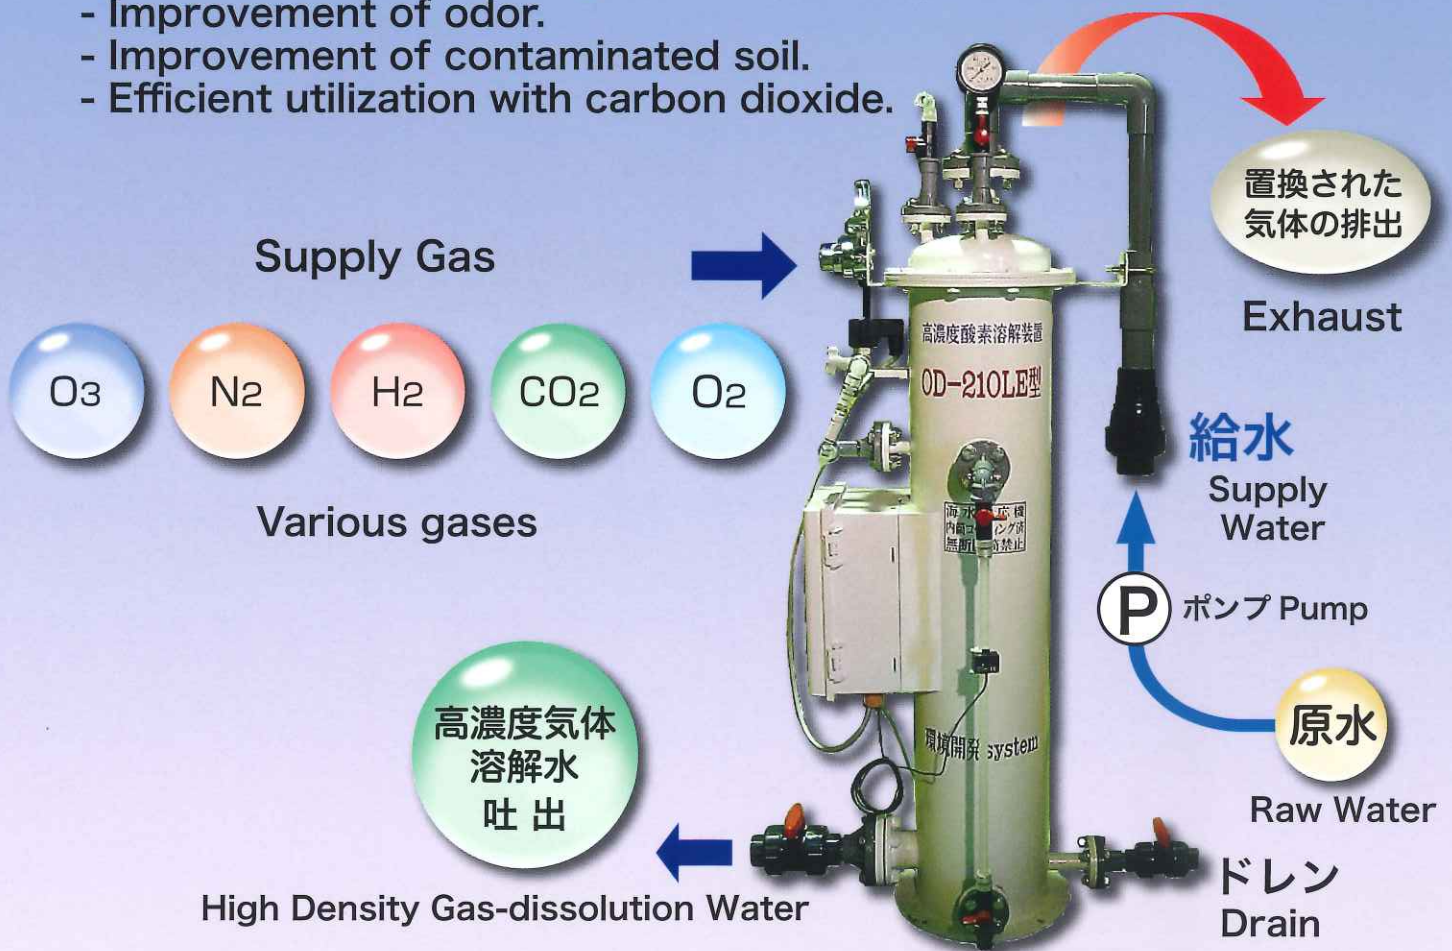

Oxygen Fighter

It dissolves pure oxygen gas into water at higher density !
It is designed and developed with unique technology by
passing water through oxygen gas, but not aeration !

Various gases (such as Ozone(O₃), Nitrogen(N₂),
Hydrogen(H₂), and Carbon Dioxide(CO₂), etc.)
can be dissolved in to water !

Applicable for :

- Wastewater treatment
- Clarification of rivers, lakes, etc.
- Fish rearing at aquarium and aquaculture.
- Hydroponic and solution culture.
- Function water with nitrogen.
- Deodorization, bleaching and sterilization with ozone.
- Improvement of odor.
- Improvement of contaminated soil.
- Efficient utilization with carbon dioxide.
